

# New Physician Announcement

## Anthony Morlandt, MD, DDS

Anthony Morlandt, MD, DDS  
Assistant Professor  
UAB Oral and Maxillofacial Surgery

The UAB Department of Oral and Maxillofacial Surgery welcomes Anthony Morlandt, MD, DDS as Assistant Professor.

Dr. Morlandt brings specialized expertise as an oral and maxillofacial surgeon who is fellowship-trained in head and neck oncology and microvascular reconstructive surgery.

Dr. Morlandt received his MD from the University of Alabama School of Medicine and subsequently completed an Oral and Maxillofacial Surgery residency with UAB Hospital. Prior to this he completed his DDS magna cum laude at the University of Texas Health Sciences Center in San Antonio, Texas. In 2013 Dr. Morlandt completed a fellowship in head and neck oncology and microsurgery at the University of Florida College of Medicine in Jacksonville, Florida.

Dr. Morlandt specializes in head and neck surgical oncology, head and neck microvascular surgery, and oral and maxillofacial surgery. He is an Associate Scientist in the Cancer Chemoprevention Program with the UAB Comprehensive Cancer Center. He has authored several peer-reviewed scientific articles and textbook chapters on head and neck ablative and reconstructive surgery.

#### Clinical & Research Interests:

- Functional outcomes following reconstructive microsurgery of the head and neck
